Ashley Centre Surgery

Epsom

Ashley Centre Surgery, Epsom

CareCapital is working with Ashley Centre Surgery, Epsom PCT and Country and Metropolitan Homes to produce a new purpose built medical centre alongside housing for the people of Epsom

High quality healthcare in a new setting

The development will encompass a new purpose built medical centre to relocate the Ashley Centre Surgery alongside residential housing.

The new 860 m², 6 GP medical centre will also have some dedicated car parking which currently it is without.

There is also provision for a 150m² pharmacy on site.

Sympathetic buildings for Epsom

This development is a joint venture between CareCapital and Country and Metropolitan homes. C&M are dedicated to producing a building that is in keeping with the nature of Epsom.

Keeping the local community in mind

Continual public engagement is a vital part of the development. Exhibitions of proposed drawings will be held throughout the planning process and all feedback considered.
