The Bespoke Solution

Dentistry - 28th March 2008

Purchasing a dental practice is a stressful and time-consuming process that requires a different set of skills than most dentists do not have. CareCapital can take the strain and offer a dental development solution for single site practices, nationwide chains and dental schools.

Within the UK CareCapital is the only healthcare property developer and investor focusing on the dental sector. In other countries, the US and Germany for example, the leasing of clinical premises is very common and UK dentists can now benefit from a process that has proved very successful abroad and will continue to make a huge difference to dentists here.

CareCapital's cost-effective bespoke practice solution covers every aspect of the process, from helping you locate your ideal site, finance and planning and construction management. By retaining the freehold, the pressure is taken off the dentist who can now focus on delivering excellent patient care rather than worrying about maintenance and other issues.

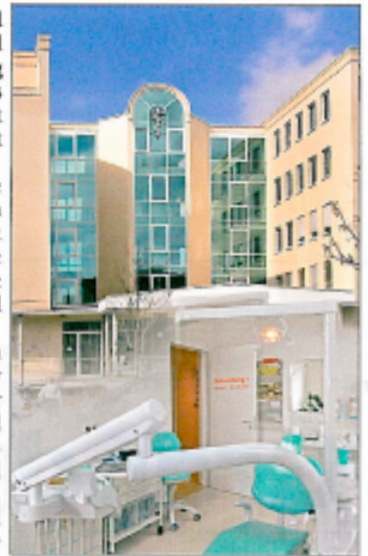

The bespoke solution

Purchasing a dental practice is a stressful and time-consuming process that requires a set of skills that many dentists do not have.

CareCapital can take the strain and offer a dental development solution for single site practices, nationwide chains and dental schools.

CareCapital is a healthcare property developer and investor focusing on the dental sector. In other countries, the US and Germany for example, the leasing of clinical premises is very common, UK dentists can now benefit from a process that has proved very successful abroad.

CareCapital's cost-effective bespoke practice solution covers every aspect of the process, from helping locate the ideal site, finance and planning and construction

management.

By retaining the freehold, the pressure is taken off the dentist, who can focus on delivering excellent patient care rather than worrying about maintenance and other issues.
