

CareCapital – Nov 07

CareCapital

An article in Implant Dentistry Today introducing CareCapital and the services we offer.

CARECAPITAL

CareCapital specialises in the development and financing of state-of-the-art dental facilities, offering a turnkey solution which covers the entire development process, as well as providing a landlord-tenant relationship with a long term view, leaving you to do what you do best whilst your dream dental facility is realised.

Having recognized a trend in the market that has already proven highly successful across Continental Europe and North America, CareCapital specialises in everything from allocating your ideal site, planning and financing, right through to design, construction and facilities management without the investment risks involved in owning a healthcare adapted property. By retaining the freehold, CareCapital is responsible for maintenance and upkeep, thus enabling the dentist to deliver high quality care in a customised surgery and premises without the additional burdens of owning the property.

CareCapital's partnerships with the world's leading dental equipment suppliers allow it to tailor a dental facility uniquely around your requirements and patient base, whether it is a single site practice, nationwide dental chain, or an institution such as a dental school.

For more information on cost effective, sustainable care facilities from CareCapital, please contact Allan Weiner on the number below or email aweiner@carecapital.co.uk or visit www.carecapital.co.uk 020 7034 1949
