The Expert Developer of Dental Premises – Aug 07

A piece in the Dental Tribune about CareCapital's dental development in Folkestone.

CareCapital

CareCapital

The Expert Developer of Dental Premises

Purchasing a property for business is an incredibly stressful task so wouldn't it be wonderful to eliminate that stress without losing the benefits of setting up on your own? With CareCapital you can!

The answer to all of your property solutions, CareCapital, already a respected and successful partner in UK healthcare practices and related businesses, is one of a very few providers of healthcare facilities offering specialist leased premises to dentists in the UK.

As part of a major town centre regeneration project, CareCapital is currently creating a 12,500 square foot Dental Centre for a team of local dentists providing both NHS and Private care in Folkestone, Kent. Looking forward to the completion of his new Dental Centre Dr Jostein Steien told us, 'CareCapital is very easy to work with. They have a very short lead time from idea to action. The well structured way in which CareCapital works is straightforward and I find that they always stand by their words.' At a recent site visit architects Austin-Smith:Lord along with newly appointed contractor Quest agree a detailed programme for completion of the new 15 surgery dental centre in November. Fitting out starts in July!

The ultimate dental development solution, CareCapital can help you to realise your dream of running your own practice, without the risks involved in owning a healthcare adapted property.

For more information on cost-effective, sustainable care facilities from CareCapital, please contact Allan Weiner on 020 7054 1949, email aweiner@carecapital.co.uk or visit www.carecapital.co.uk

1st year anniversary of the Cavitron™ Plus!

At the 2007 BDTA Showcase, the 1st year anniversary of the Cavitron™ Plus™ ultrasonic scaler.

After a very successful 1st year, the DENTSPLY Cavitron™ Team will have the new units on display ready to demonstrate the latest features, which include the latest *Diagnostic Purge* function. Further still, the *Purge* function will be in operation, demonstrating the rapidity and effectiveness compared to normal prophylactic cup polishing.

The Cavitron™ Blue Zone™ is ideal for subgingival scaling, and when used with a local anaesthetic like Oraquix™ (2.5/25mg procaine), it makes the patients experience much more comfortable.

From market research carried out, because Oraquix™ is so effective, patients are willing to pay around £7.50, which covers the cost of the anaesthetic. The research also reported that 70% of patients would tell their friends about Oraquix, so a great product to

BDA success

Champagne All Round from Henry Schein

Henry Schein is delighted to announce the opening of SmileSense, a new state-of-the-art dental practice offering a comprehensive range of treatments to private clients in East Molesey, Surrey (Surrey) owned by Dr Karen Gangotra BDS (Lion).

Owejoyed to finally open SmileSense to the public, Karen said, 'Despite the bad weather, the long awaited opening was a huge success. It was a great opportunity to share a glass of champagne with the local people who showed much enthusiasm about the start of a true "new era in dentistry".'

Viewed along to officially open the new practice at midday, 'I was most impressed by this state-of-the-art dental practice with a wonderful array of new equipment. The team takes the pain out of a visit to the dentist – and Karen's enthusiastic personality makes it a pleasure.'

Attendees at the opening ceremony were delighted to embark on a guided tour of the impressive new practice, enjoying curious and salient tests to have their plaque win FREE tooth whitening and a full supply of delicious refreshment. All in all, watch the extraordinary work of the CEREC CAD/CAM machine milling.

Henry Schein provided some many last wishing Karen and her future! Champagne for the opening ceremony work of the CEREC CAD/CAM machine milling.
